

PACKAGING AND SHIPPING

STONITE PRODUCTS SHIPPING INFORMATION

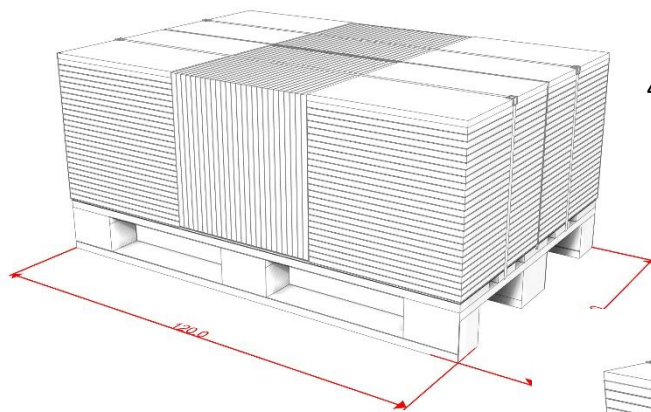

STONITE products are packed and shipped in two methods depending on the customer requests and final destination.

- Open crate – suitable for short distance shipping via freight trucks
- Closed crate – suitable for shipping in a container for long distance or over seas destinations

OPEN CRATE PACKAGING

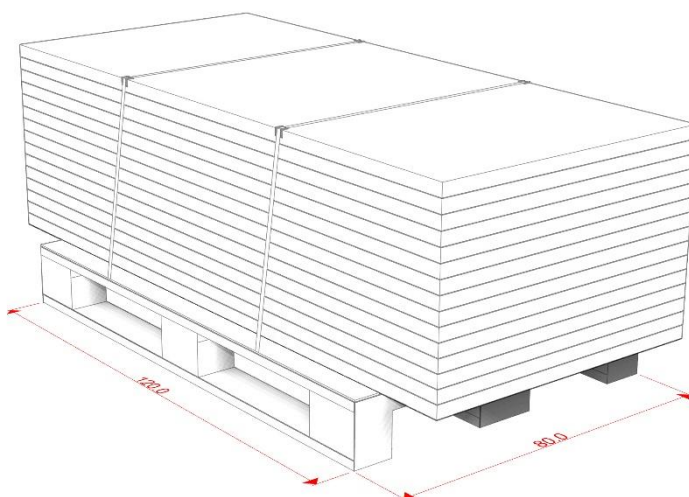

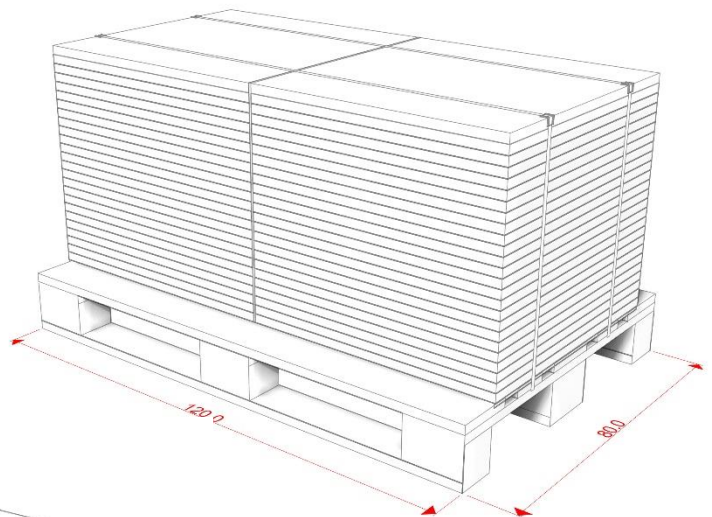

Products placed on a standard wooden crate and wrapped with stretch film and tied with polyethylene straps including corner tabs. With this economy packaging STONITE products can be shipped on the truck to short to medium distances.

Most of the local and neighboring country shipments can be done with this method.

40 X 40 X 1.5 cm Product packaging

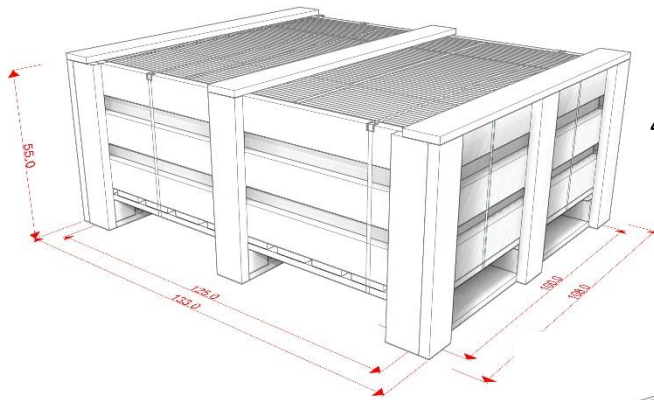

60 X 60 X 2 cm Product packaging

Slab Product packaging

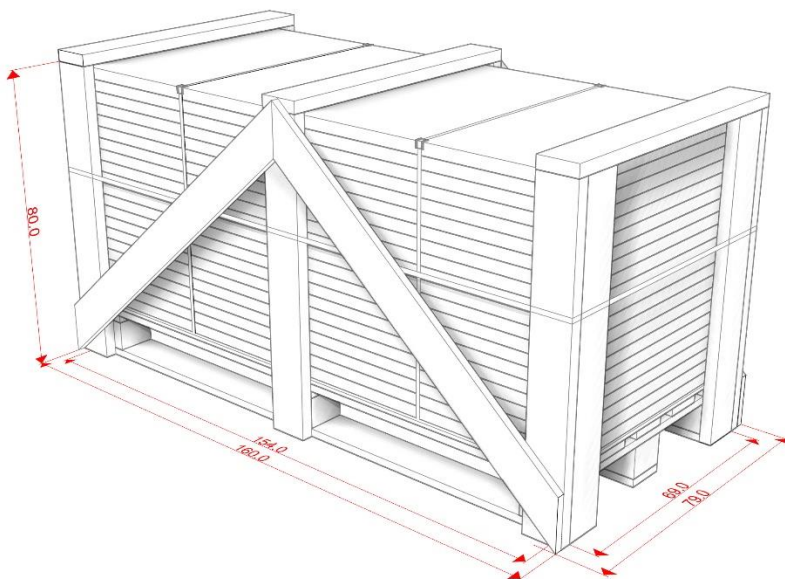

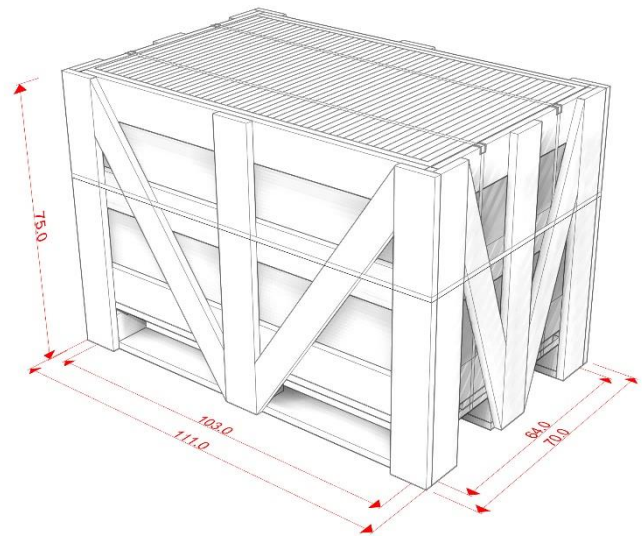

CLOSED CRATE PACKAGING

Products are placed in closed crates padded with foam boards can be shipped inside containers or freight trucks to long distances or overseas locations safely.

40 x 40 x 1.5 cm products closed crate packaging

60 x 60 x 2 cm products closed crate packaging

Slab products closed crate packaging
